

# Paediatric Care Online

## An innovative decision support system for all health professionals

Designed to help health professionals manage childhood illness, Paediatric Care Online (PCO UK) offers immediate access to evidence-based information, helping to inform decisions at the point of care.

On desktop, tablet and smartphone devices, PCO UK is available anytime, anywhere and the powerful search function offers quick access to critical information.

To start using PCO UK, access The Knowledge Network at [www.knowledge.scot.nhs.uk](http://www.knowledge.scot.nhs.uk) and go to 'Evidence summaries' or go direct to [www.knowledge.scot.nhs.uk/home/point-of-care.aspx](http://www.knowledge.scot.nhs.uk/home/point-of-care.aspx)

## Key Practice Points

A comprehensive range of Key Practice Points cover common signs and symptoms including red flags and referral indicators, offering a clinically assured 'roadmap' for diagnosis, incorporating Scottish Intercollegiate Guidelines Network guidance where available.

## Child Protection Companion

The RCPCH Child Protection Companion which covers all forms of abuse and the spectrum of paediatric involvement: from examination, to identification, to referral, to court.

## BNF for Children

Essential practical information to help you prescribe, monitor, supply, and administer medicines for childhood disorders.

## Public Health England Green Book

The latest information on vaccines and vaccination procedures, for vaccine preventable infectious diseases in the UK.

## Quick links to resources

Patient information and quick links to National Clinical Guidance plus other useful resources being added regularly
